

Lesson 16: Has the universe always been there?

TASK 2

For each theory you must try to find evidence that supports the theory and evidence that would oppose it. Some pieces of evidence may support more than one theory. Some pieces of evidence will support one theory and oppose others.

Theory	Evidence For	Evidence Against
Static Universe		
Infinite Universe		
Steady State Universe		
The Big Crunch		
Slowing Expansion		
Accelerating Expansion		
The Big Bang
